# Pillar 2 – Global Challenges and European Industrial Competitiveness

# Missions

Pillar 2 sets EU-wide missions with ambitious goals

Transforming global challenges into very concrete, measurable and achievable missions

These missions with some of their targets for 2030 are:

- **Adapting to climate change, including societal transformation**: preparing Europe to deal with climate disruption
- **Cancer**: more than three million lives saved, longer and better lives, gaining a thorough understanding of cancer
- **Healthy oceans, seas, coastal and inland waters**: cleaning up marine and freshwater, restoring degraded ecosystems and habitats
- **Climate-neutral and smart cities**: supporting 100 European cities and demonstrating a systematic transformation to climate neutrality by 2030
- **Soil and food health**: at least 75% of all soils in the EU are healthy for food, people, nature and climate.

There are dedicated calls related to the MISSIONS

# Mission towards 100 (112) climate neutral cities by 2030
